ICANN 40 | 13-18 March 2011

Silicon Valley is in the southern part of the San Francisco Bay Area in Northern California in the United States. The region is home to many of the world's largest technology companies including Apple, Cisco, Google, HP, Intel and Oracle.

"Perhaps the strongest thread that runs through the Valley's past and present is the drive to 'play' with novel technology, which, when bolstered by an advanced engineering degree and channeled by astute management, has done much to create the industrial powerhouse we see in the Valley today."
